comments

Carlton City Hotel Singapore is honoured to be awarded the Certificate of Excellence Hall of Fame by TripAdvisor.

We stayed for 2 nights and could not speak more highly of Carlton City. Room was spotless, amenities were great and the small touches were there - crucially, we asked to take a shower after checkout and before our evening flight and they gave us access to a room to do so; really appreciated this. The pool is good, and the location is excellent too. Would 10/10 stay again.

Wonderful hotel in a great location and amazing staff, especially Jennifer from reception. The breakfast is one of the best and the lounge was a Heaven after a long day. We love the pool and the gym.

Perfect stay for the festive season! Top service, polite and attentive staff and overall welcoming atmosphere. Clean and spacious rooms. Graffiti Sky Bar on the top floor is a must - Bartenders Rodney, Joel and Deven definitely made our stay even more pleasant and memorable.

They knew how to make us feel warm and welcome and cracked jokes to make us laugh. They were very patient with us when we asked questions or asked for recommendations with orders for drinks and bar food. They went above and beyond in providing the best quality service to us. Rodney, Joel, and Deven, thank you for making our stay such an enjoyable and memorable one and we look forward to coming back soon!

We were very lucky to meet such a helpful and smiley person as Xavier! Every time he was suggesting us not only the right places to visit, but also was giving some helpful tips about best time of visiting each place, saving money and so on... and always with the most charming smile we ever seen!

The concierge, Xavier Kok, was extremely helpful and kind to me during my stay at this hotel and went above and beyond. Clean and sleek rooms, comfortable beds and a pretty cool view as well. I highly recommend a stay at the Carlton City Hotel!
